

RYSEN

THE INTERNATIONAL SCHOOL

India's first **EXPERIENTIAL** LEARNING School

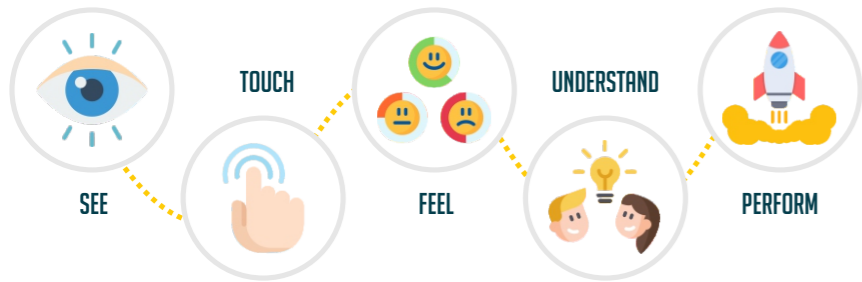

Led by **Doctor & IITians**

- ▶▶ New-age Education
- ▶▶ International Curriculum
- ▶▶ Cutting-edge Technologies

We Choose Experiential Learning Pedagogy "LEARNING BY DOING"

Key Features of the CURRICULUM

 International Curriculum	 New-age Technologies like Robotics, Coding, and AI/ML	 Astronomy Lab
 Expert Mentoring	 Holistic Development	 Global Learning

EXPERIENCE:
Children learn best by doing

This hands-on approach enables them to grapple with a problem, issue, or concept using all their senses. The learning experience thus becomes multi-dimensional and an internal, cognitive, sensory, and emotional process. This engagement leads the children to the second stage.

REFLECTION:
Children examine their learning

In the second step, children examine their learning critically and creatively. Through sustained inquiry, they are able to probe further into the problem, concept, or task at hand. This takes the child onto the third stage.

Every Child has Unique Talent

We have..

Personalized Learning & Assessment

Personal Counselling

No need for Extra Tuition & Coaching

Unleashing Potential through NEW AGE EDUCATION Our experiential learning approach includes:

Hands-on Learning

Playful Learning

Modern Learning

DIALOGUE:
Seeking answers to questions

After having experienced and reflected upon a problem, the mind seeks answers via the dialogic approach. Dialogue helps the child to see the bigger picture, think outside the box, and engage collaboratively with others. It helps to focus on individual and interpersonal learning outcomes.

UNDERSTANDING:
The child arrives at the destination

After having meaningful experiences, followed by reflection and dialogue, the child arrives at the destination. This helps the child to think and act independently. It manifests itself not only in terms of grades or marks but also in real and meaningful understanding

Welcome to Rysen The International School Where Innovation Meets Education!

At Rysen, we believe in shaping the future through cutting-edge education. Our curriculum is rooted in the National Education Policy (NEP) of 2020, ensuring that our students are prepared for the challenges and opportunities of the 21st century. We are committed to providing a holistic learning experience that goes beyond textbooks.

We understand that the jobs of the future demand a strong foundation in new age education. Our state-of-the-art facilities and dedicated faculty foster an environment where curiosity is celebrated, and innovation is encouraged.

Meet the Visionaries Behind

KAPIL ARYA
IIT Delhi Alumni
9+ Years Experience

O.P. GODARA
IIT Delhi Alumni
9+ Years Experience

MBBS-SPMC Bikaner
20+ Years Experience

PRITESH MEENA
IIT Delhi Alumni
9+ Years Experience

Quality Education Meets Affordability

Rysen The International School offers a superior learning experience without compromising on teaching methodology.

Why Choose Us?

Global Learning

We provide students with global exposure through participation in renowned competitions like Google Science Fair and Intel Science Fair, fostering a spirit of curiosity and exploration.

Expert Mentoring

Benefit from career counselling provided by educationists, industry experts, and alumni from prestigious institutes like IIT Delhi, SPMC.

Affordable Excellence

We are committed to delivering a superior learning experience without compromising on teaching methodology. We believe in making quality education accessible to all.

Our Advisory Leaders

DR. HARISH CHAUDHRY

Professor, Department of Management Studies, IIT Delhi
IIM Bangalore Alumni

AJITESH ABHISHEK

Product Head, Google Cloud
IIT Delhi Alumni

AKASH CHOUDHARY

IAS, Batch 2021
IIT Delhi Alumni

We believe that quality education should be accessible to everyone.
We are committed to offering an affordable yet superior learning experience.

Join us and let your child discover the future with us!
